

Sealed Air Releases First Company-Wide Sustainability Review

February 13, 2014

ELMWOOD PARK, N.J.--(BUSINESS WIRE)--Feb. 13, 2014-- Sealed Air Corporation (NYSE:SEE) today announced the release of its first company-wide sustainability review. The review is designed to demonstrate how Sealed Air approaches sustainability within its own operations and through its customer solutions. This includes:

- Acting responsibly – from minimizing environmental impact to providing a safe workplace and respecting and supporting the communities where the Company operates.
- Driving performance by innovating solutions designed to help customers achieve their sustainability goals in the face of today's biggest social and environmental challenges.

"Almost all of our customers have sustainability goals and almost everything we do is designed to help them achieve those goals while delivering cost competitiveness and performance," said Ron Cotterman, Vice President, Sustainability, Sealed Air. "This includes enhancing topline growth and reducing costs, conserving energy, water and other resources, and mitigating risk.

"At the same time, these solutions are helping to create a better way for life by preventing damage to the valuable goods people ship and receive, preventing the spread of disease through healthier and cleaner environments, and improving access to a more secure food supply chain—one that is safer and more wholesome, more efficient and less wasteful."

The review can be found online in the sustainability section of Sealed Air's website at: <http://www.sealedair.com/Sealed-Air-Sustainability>.

Business

Sealed Air Corporation creates a world that feels, tastes and works better. In 2013, the Company generated revenue of approximately \$7.7 billion by helping our customers achieve their sustainability goals in the face of today's biggest social and environmental challenges. Our portfolio of widely recognized brands, including Cryovac® brand food packaging solutions, Bubble Wrap® brand cushioning and Diversey™ cleaning and hygiene solutions, ensures a safer and less wasteful food supply chain, protects valuable goods shipped around the world, and improves health through clean environments. Sealed Air has approximately 25,000 employees who serve customers in 175 countries. To learn more, visit www.sealedair.com.
