

## CRYOVAC® Brand Food Packaging Installs 4,000th Rotary Vacuum Packaging System

September 9, 2025

*The landmark installation at longtime customer Cargill underscores proven performance and innovation*

CHARLOTTE, N.C., Sept. 9, 2025 /PRNewswire/ -- **Sealed Air Corporation's (NYSE: SEE)** CRYOVAC® brand food packaging reached a major milestone with the installation of its 4,000<sup>th</sup> rotary vacuum chamber system. The new machine was installed for longtime CRYOVAC® customer Cargill, a global leader in agriculture and food, reinforcing CRYOVAC®'s longstanding commitment to strong partnerships and operational excellence. The installation took place at Cargill's Dodge City, Kansas, facility.

More than 50 years ago, CRYOVAC® revolutionized food packaging with the introduction of its first rotary vacuum chamber system, a breakthrough that redefined efficiency, safety and product integrity. Since then, the brand has continued to lead the industry with innovations that enhance productivity, improve safety and help customers reduce operational costs.

The installation of the 4,000<sup>th</sup> rotary system marks not just a production milestone, but a testament to enduring performance. It replaced a unit that reliably operated for 40 years, an achievement made possible by the precision engineering and manufacturing quality of CRYOVAC® systems, along with the technical expertise of the service team working in close partnership with Cargill's maintenance staff. That same commitment to design, service and technical excellence remains at the core of how CRYOVAC® helps customers maximize uptime and achieve the highest performance from their operations.

"Our partnership with CRYOVAC® is built on mutual trust and a shared vision for efficiency, safety and innovation," Jeremy Burr, Cargill plant manager said. "CRYOVAC® is invested in our success, which shows in the level of dedication and service they deliver."

"We are focused on creating value for our customers, not just today, but for the long term," Sealed Air President & CEO Dustin Semach said. "We are honored to partner with Cargill, and customers across the entire sector, providing them with packaging technology that's engineered to perform, built to last and serviced by the best in the business."

Today, CRYOVAC® rotary equipment operates on six continents, supported by an extensive network of technical service and product experts ensuring customers everywhere benefit from decades of proven innovation and trusted expertise.

"When you install a CRYOVAC® system, it's about more than buying a machine — you are stepping into a legacy of service, reliability and innovation trusted across the globe," Joe Lambert, Sealed Air's North America Food Vice President and General Manager said. "As we approach our 85<sup>th</sup> anniversary, we remain committed to meeting the food industry's evolving needs, drawing on decades of experience to deliver innovative equipment, advanced materials and a service team dedicated to keeping our customers running."
