- Provided Outlook for Full Year 2017 from Continuing Operations

CHARLOTTE, N.C., May 9, 2017 – Sealed Air Corporation (NYSE: SEE) today announced financial results for first quarter 2017. Commenting on these results, Jerome A. Peribere, President and Chief Executive Officer, said, “2017 is a transformational year for Sealed Air. In March, we announced the sale of Diversey to Bain Capital Private Equity in a transaction valued at \$3.2 billion. This transaction marks a significant milestone for both New Sealed Air and Diversey and we are committed to a timely and successful separation. For Sealed Air, the divestiture gives us an even greater focus on executing our profitable growth story and the financial flexibility to invest in our core business.”

Peribere continued, “Our first quarter performance demonstrates our commitment to renewed growth and high quality earnings. We were pleased North America delivered 7% volume growth as a result of increased demand for our protein packaging and e-Commerce solutions. Looking forward, we expect continued momentum on the top line and improved earnings throughout the remainder of the year.”

Unless otherwise stated, all results compare first quarter 2017 results to first quarter 2016 results from continuing operations. Diversey refers to the Diversey Care and food hygiene and cleaning business. As a result of the Diversey transaction, we have also changed our segment reporting structure effective as of January 1, 2017. Food Care now includes the Medical Applications businesses which were previously reported under 'Other'. Additionally, Food Care now excludes the food hygiene business, which is a component of Diversey and classified as discontinued operations. Year-over-year financial discussions present operating results from continuing operations as reported, and on a constant dollar basis. Constant dollar refers to unit volume and price/mix performance and excludes the impact of currency translation from all periods referenced. Additionally, non-U.S. GAAP adjusted financial measures, such as Adjusted Earnings Before Interest Expense, Taxes, Depreciation and Amortization (“Adjusted EBITDA”), Adjusted Net Earnings, Adjusted Diluted Earnings Per Share (“Adjusted EPS”) and Adjusted Tax Rate, exclude the impact of special items, such as restructuring charges, charges related to the sale of Diversey, charges related to ceasing operations in Venezuela, cash-settled stock appreciation rights (“SARs”) granted as part of the original Diversey acquisition and certain other infrequent or one-time items. Please refer to the supplemental information included with this press release for a reconciliation of Non-U.S. GAAP to U.S. GAAP financial measures.

First Quarter 2017 Highlights by Division

- Food Care net sales of \$656 million increased 2.7% as reported. Currency had a positive impact on Food Care net sales of 0.6%, or \$4 million. On a constant dollar basis, net sales increased 2.1% due to positive volume growth of 3.1% partially offset by lower price/mix of 1.0%. Volume growth of 9% in North America and 1% in Latin America were partially offset by declines in Europe, Middle East and Africa (EMEA) and Asia Pacific. Adjusted EBITDA of \$142 million or 21.7% of net sales was primarily attributable to positive volume trends, which were partially offset by unfavorable mix and price/cost spread.
- Product Care net sales of \$377 million in the first quarter were up 2.5% as reported and 3.6% on a constant dollar basis. Currency had a negative impact on Product Care net sales of 1.1%, or \$4 million. Sales volume increased 5.0% with positive trends across all regions. This was offset by unfavorable price/mix of 1.4%. North America volumes were up 5.5% as a result of continued strength in e-Commerce. Adjusted EBITDA of \$74 million or 19.7% of net sales was attributable to volume growth, which was more than offset by higher raw material costs and unfavorable mix of e-Commerce products.
- On March 27, 2017, Sealed Air announced it had entered into a definitive agreement to sell Diversey to Bain Capital Private Equity, a leading global private investment firm, for \$3.2 billion. The transaction is expected to close in early September.

- In conjunction with the announced divestiture, Sealed Air's Board of Directors authorized an increase of the share repurchase program by an additional \$1.5 billion of Sealed Air common stock. With this increase, the total authorization for future repurchases under the program is approximately \$2.2 billion.

First Quarter 2017 U.S. GAAP Summary, Continuing Operations

Net sales of \$1.0 billion increased 2.6% on an as reported basis. Currency had a negative impact on total net sales of 0.1%, or \$1 million. Net earnings in the first quarter 2017 were unfavorably impacted by \$139 million of special items, including \$127 million of tax expense recorded in accordance with the pending sale of Diversey. Special items negatively impacting the first quarter of 2017 also included costs incurred related to the sale of Diversey, and restructuring and other restructuring associated costs. Net earnings in the first quarter 2016 included \$8 million of special items, primarily consisting of restructuring and other restructuring associated costs, a loss on the sale of our European food trays business, and a loss on the remeasurement of our Venezuelan operations.

The effective tax rate in the first quarter of 2017 was 165.1%, compared to the effective tax rate of 19.0% in the first quarter of 2016. The effective tax rate in the first quarter of 2017 was negatively impacted by previously discussed tax expense related to the pending sale of Diversey, which was partially offset by a \$9 million tax benefit on share-based compensation and a \$5 million benefit related to statute of limitations expirations and audit settlements. The effective tax rate in the first quarter of 2016 was favorably impacted by a \$10 million tax benefit on share-based compensation.

First Quarter 2017 Non-U.S. GAAP Summary, Continuing Operations

Net sales on a constant dollar basis increased 2.7%. North America was up 5.7% followed by Latin America, which delivered constant dollar sales growth of 5.5%. Volumes increased 3.8% with positive trends across the all regions except EMEA. Volumes in North America increased 7.4% and Latin America was up 1.4%. Constant dollar sales were relatively flat in Asia Pacific while EMEA declined 3.5%.

Adjusted EBITDA included \$34 million of Corporate expenses in the first quarter of 2017, of which \$8 million reflected costs that were previously allocated to Diversey but not included in net income from discontinued operations. Corporate expenses were \$30 million in the first quarter of 2016, and included \$5 million of costs that were previously allocated to Diversey, but which were not included in net income from discontinued operations.

Adjusted EPS was \$0.43 for the first quarter 2017. This compares to Adjusted EPS of \$0.42 in the first quarter 2016. The Adjusted Tax Rate was 13.6% in the first quarter 2017, compared to 18.8% in the first quarter 2016. The Adjusted Tax Rate in the first quarter of 2017 was favorably impacted by \$9 million of tax benefit on share-based compensation and \$6 million benefit related to statute of limitations expirations and audit settlements. The Adjusted Tax Rate in the first quarter of 2016 was favorably impacted by a \$10 million tax benefit on share-based compensation.

First Quarter 2017 U.S. GAAP Summary, Discontinued Operations.

Net sales included in the calculation of net earnings from discontinued operations were \$582 million as compared to \$585 million in the first quarter of 2016. Net income from discontinued operations on a reported basis was \$11 million, or \$0.05 per diluted share, as compared to \$28 million, or \$0.14 per diluted share in the first quarter 2016. Net earnings in the first quarter 2017 were negatively impacted by \$19 million of tax expense related to the planned repatriation of foreign earnings.

Cash Flow and Net Debt

Cash flow provided by operating activities in the first three months of 2017 was \$17 million, which is net of \$15 million of restructuring payments. This compares with cash provided by operating activities of \$15 million in the first three months of 2016.

Capital expenditures decreased to \$50 million in the first three months of 2017 compared to \$52 million in the first three months of 2016. Free Cash Flow, defined as net cash provided by operating activities less capital expenditures, was an outflow of \$33 million in the first three months of 2017. This compares to an outflow of \$41 million in the first three months of 2016.

Compared to December 31, 2016, the Company's net debt increased \$89 million to \$3.9 billion as of March 31, 2017. This increase in net debt primarily resulted from a use of working capital, capital expenditures, and amounts paid for dividends.

Updated Outlook for Full Year 2017, Continuing Operations

For the full year 2017, the Company expects to achieve approximately Net Sales of \$4.3 billion, as compared to \$4.2 billion for the full year 2016. This sales performance is based on an expected 3% constant dollar sales growth in Food Care and 3 - 4% constant dollar sales growth in Product Care. Currency is expected to have a negative impact of \$35 million on Net Sales in 2017.

Adjusted EBITDA from continuing operations for the full year 2017 is expected to be approximately \$825 million, as compared to \$808 million for the full year 2016. The outlook for Adjusted EBITDA assumes \$25 million of costs that were previously allocated to Diversey that were not included in net earnings from discontinued operations, which compares to \$17 million in 2016. Currency is expected to have a negative impact of approximately \$5 million on Adjusted EBITDA in 2017.

Adjusted EPS from continuing operations is expected to be approximately \$1.70 for the full year 2017 and assumes an Adjusted Tax Rate of 28% and an estimated 196 million diluted shares outstanding, which is in line with diluted shares outstanding in the first quarter of 2017.

The Company's Free Cash Flow outlook assumes an early September close on the sale of Diversey and is based on a full year of Adjusted EBITDA from continuing operations of \$825 million and eight months from discontinued operations of \$215 million. Free Cash Flow outlook excludes cash flow generation from working capital related to Diversey in the last four months of the year, and does not include payments expected to be paid in relation to the sale of Diversey. The Company anticipates 2017 Free Cash Flow to be approximately \$390 million, including capital expenditures of approximately \$175 million and cash restructuring payments of approximately \$50 million, which excludes any restructuring programs to address stranded and unallocated costs. Full year 2016 Free Cash Flow was \$631 million, including \$276 million of capital expenditures and cash restructuring payments of \$66 million.

Non-U.S. GAAP Information

In this press release and supplement, we have included several non-U.S. GAAP financial measures, including Adjusted Net Earnings and Adjusted EPS, net sales on a "constant dollar" or "organic" basis, Free Cash Flow, Adjusted EBITDA and Adjusted Tax Rate, as our management believes these measures are useful to investors. We present results and guidance, adjusted to exclude the effects of Special Items and their related tax impact that would otherwise be included under U.S. GAAP, to aid in comparisons with other periods or prior guidance. In addition, non-U.S. GAAP measures are used by management to review and analyze our operating performance and, along with other data, as internal measures for setting annual budgets and forecasts, assessing financial performance, providing guidance and comparing our financial performance with our peers and may also be used for purposes of determining incentive compensation. *We have not provided guidance for the most directly comparable U.S. GAAP financial measures, as they are not available without unreasonable effort due to the high variability, complexity, and low visibility with respect to certain Special Items, including gains and losses on the disposition of businesses, the ultimate outcome of certain legal or tax proceedings, foreign currency gains or losses resulting from the volatile currency market in Venezuela, and other unusual gains and losses. These items are uncertain, depend on various factors, and could be material to our results computed in accordance with U.S. GAAP.

- (2) 2017 primarily consists of \$112 million of deferred taxes, including \$127 million of tax expense recorded in accordance with the pending sale of Diversey, depreciation and amortization of \$53 million, share based compensation expense of \$9 million and profit sharing expense of \$9 million. 2016 primarily consists of depreciation and amortization of \$59 million, profit sharing expense of \$7 million and loss on sale of businesses of \$3 million.
- (3) The Company early adopted ASU 2016-09 on a retrospective basis related to the classification of excess tax benefits on the Statement of Cash Flows, effective January 1, 2016, which resulted in an increase in operating cash flow of \$7 million and a decrease in financing activities of \$7 million for the three months ended March 31, 2016. Additionally, due to changes in the accounting treatment of a factoring agreement the Company reclassified amounts from cash and cash equivalents to other receivables \$3 million as of March 31, 2016. This reclassification resulted in a decrease in cash provided by operating activities of \$4 million for the three months ended March 31, 2016.

- (1) The supplementary information included in this press release for 2017 is preliminary and subject to change prior to the filing of our upcoming Quarterly report on Form 10-Q with the Securities and Exchange Commission.
- (2) Our price/mix reported above includes the net impact of our pricing actions and rebates as well as the period-to-period change in the mix of products sold. Also included in our reported price/mix is the net effect of some of our customers purchasing our products in non-U.S. dollar or euro denominated countries at selling prices denominated in U.S. dollars or euros. This primarily arises when we export products from the U.S. and euro-zone countries.
- (3) Total constant dollar change is a non-U.S. GAAP financial measure which excludes the impact of foreign currency translation. Since we are a U.S. domiciled company, we translate our foreign-currency-denominated financial results into U.S. dollars. Due to changes in the value of foreign currencies relative to the U.S. dollar, translating our financial results from foreign currencies to U.S. dollars may result in a favorable or unfavorable impact. It is important that we take into account the effects of foreign currency translation when we view our results and plan our strategies. Nonetheless, we cannot control changes in foreign currency exchange rates. Consequently, when our management looks at our financial results to measure the core performance of our business, we exclude the impact of foreign currency translation by translating our current period results at prior period foreign currency exchange rates. We also may exclude the impact of foreign currency translation when making incentive compensation determinations. As a result, our management believes that these presentations are useful internally and may be useful to our investors.
